

Instructions for Parents with Children Having Dental Treatment Under General Anesthesia at KDAC

1. Your child **must not eat or drink from midnight** the night before their treatment. Your child could become seriously ill if any food is given before the anaesthetic. If this happens, the appointment will be cancelled for the safety of your child.
2. Your child must be physically well to undergo this procedure. If your child develops a **cold, cough, fever, respiratory infection or other illness** or is exposed to a contagious illness please call Wendy immediately at 613-384-0090.
3. Children may take Tylenol (Acetaminophen), Advil/Motrin (Ibuprofen) if needed up to 1 day prior to surgery. No aspirin or aspirin products should be given.
4. A parent or legal guardian **must** accompany the child to the clinic on the day of treatment.
5. Bring your child's Health Card with you.
6. Two adults must accompany the child on the ride home.

Our facility time is very limited and we have many children who require this service. **If it is necessary to cancel your child's scheduled appointment, please notify us as soon as possible to enable other child to receive treatment at this time.**

If you have any questions or concerns please call Wendy:

(613) 384-0090 or toll-free at 1-888-384-0090
